Standards and Quality Report 2024-25.

The context of the school and nursery:

North Walls Community School nursery serves the island of Hoy. The local community is very supportive of the nursery. We enjoy an active Parent Council and Pupil Council. The school & nursery roll for 2024-25 was Nursery: 5 pupils, Class One (P1 – 4): 10 pupils, Class Two: 11 pupils.

Vision: 	Values: Safe, included and happy Mindful learning Achievement for all Responsible and resilient Teamwork and trust Creativity
Aims: We aim to support our pupils to develop the knowledge, skills and attributes they will need to do well in life, in learning and in the workplace.	Curriculum Rationale: We want all children at North Walls to be literate and numerate, experience a broad range of learning opportunities across the curriculum, experience successes and achieve aspirations, show respect, tolerance and care for others, take an active role in the school's community, understand Orkney's unique location, culture and history to promote a sense of worth, develop a variety of skills to meet the ever changing demands of learning, life and work and make positive life choices.

- **ELC IMPROVEMENT PRIORITY 1: To build individual learning profiles using examples of work to highlight where targets have been met.**

Data/evidence that informed this priority:

- Improvement priority identified by HMIe inspection.
- Parent/carer feedback from consultation survey:

NIF Key drivers: 1, 2, 3, 4, 5, 6		HGIOELC or CI QIs: 2.3, 3.2	
Outcomes for learners:	Actions/Approaches/Interventions:	Measures:	Impact:
Clear identification of individual personal progress	<ul style="list-style-type: none"> • Visit local settings to compare different learning folder organisation • Agree a clear organisation of learning folders which will allow progress to be identified. • Where possible, reorganise current folders • Introduce new format of learning folders • Share redesign with parents/carers 	<p>Folder use will demonstrate ease of use</p> <p>Learner progress will be easier to identify and monitor</p>	<ul style="list-style-type: none"> • Individual progress has been easier to identify and track. • Quality of observations in individual subjects has been easier to monitor. • Breadth of Peedie Notes has been easier to monitor, ensuring a complete reflection of learners' progress.

NURSERY IMPROVEMENT PRIORITY 2: Complete redevelopment of nursery outdoor area

Data/evidence that informs this priority: This is a continuation of the 23/24 nursery improvement priority

NIF Key drivers: 1, 2, 3, 4, 5, 6		HGIOELC or CI QIs: 1.3, 2.3	
Outcomes for learners:	Actions/Approaches/Interventions:	Measures:	Impact:
Stimulating, interactive outdoor learning area	<ul style="list-style-type: none">• Complete learner & parental consultation regarding redesign of outdoor area.• Plan and cost redesign of outdoor area• Locate resources required for redevelopment• Prioritise redesign work, sequencing process using parental/community assistance• Involve learners with the improvement process, photographing change, helping as/where possible	Pupils have opportunities for challenge, problem solving, creativity in their learning. Practitioner observations Feedback from learners Feedback from parents & families	This improvement priority has not yet been completed. The task has been affected by the size of the improvement needed and a particular area currently awaiting OIC maintenance which will affect redevelopments. Instead, we decided to start upgrading specific areas, involving the learners. They have worked with the Technician using sensory plants to create a specific cobbled area. The janitor has sourced and planted over 20 trees in the outside area. It is too soon to measure impact. This priority will continue next year.

Overall evaluative statement:

The redevelopment of individual Learning Folders went well in terms of ease and impact. We can identify progress and coverage which assists during tracking meetings. These will continue to be evaluated and fine-tuned. Our efforts to redevelop the outside learning area, have been hampered by OIC delay regarding a specific area and fence replacement. We realised that to redevelop the whole area was too large (and possibly not what was required). Consequently, we have concentrated on smaller specific areas and ensuring learners fully participate with the improvements. The project is longer than anticipated and will continue next year.

Summary of ELC progress for 2024-25:

Key question 1: Is the child meeting developmental milestones for their age?

We are unable to report on our ELC Progress due to our small numbers meaning that children may be identifiable.

Key question 2: Is the child making very good progress?

We are unable to report on our ELC Progress due to our small numbers meaning that children may be identifiable.

Care Experienced Children:

How successful were our improvements – progress made with the priorities from our 2024-25 School Improvement Plan?

SCHOOL IMPROVEMENT PRIORITY 1: High Quality Teaching & Learning Toolkits – Using effective questioning to develop higher level thinking skills

Data/evidence that informs this priority:

- Self-evaluation of lessons using the HQ toolkit highlights inconsistent use of questioning to develop higher- level thinking skills
- HMIe feedback from lesson observations
- 28% of children do not feel that the work is hard enough very often
- **Parent/carer feedback from consultation survey:**

Evaluative statement: Most of learners have met, or exceeded the appropriate standard in reading, writing, listening & talking and numeracy. Those not meeting the standards have individual targets and support plans in place.

Pupil Equity Funding Report 2024-25.

Total funding for 2024-25:	£5400	FME Percentage of school roll (%):	25%
Rationale for Spend:	Targeted writing intervention for pupils To use a dance programme to boost self-confidence and self-esteem To close the attainment gap by offering targeted support from SfLA		
Activities/interventions:	Introduce Talk for Writing across school Use dance to allow pupils to extend their own experiences and express their creativity.		
Evaluative statement:	We were not able to receive the full basic training for T4W as it was fully booked. The training for fiction was aimed at the more able child. We are not yet proficient with T4W across the school and require further training. The school is to examine its approach to writing as part of the improvement plan for 25/26, The impact of the dance programme has been significant in terms of raising targeted pupils' self-confidence and self-esteem. It has provided children impacted by equity-based difficulties, to have an equal opportunity to succeed as their peers.

School Improvement Plans. 25/26

How will we know if we are achieving our key improvement priorities?

SCHOOL IMPROVEMENT PRIORITY 1: Writing

Data show the percentage of children on the cusp/below expected in writing is increasing compared to reading:

23/24: 17% (reading: 13%)

24/25: 29% (reading: 14%)

Professional dialogue highlights uncertainty regarding consistent approaches to writing, school policy and procedures.

Pupil surveys indicate:

- 45% reported time to complete is an issue for them.
- 25% reported that following their plan was especially hard.
- 90% would like the opportunity to help others improve their work.
- 47% of learners do not know how to improve their work, after marking has taken place.
- 84% expressed a wish to create a home/school writing journal showing end of unit exemplars.

Equity Planning

Pupil Equity Funding Plan 2025-26.

Total funding for 2025-26:	£5400	FME Percentage of school roll (%):	19%
Rationale for Spend:	Rationale for PEF spend: Although the number of children qualifying for FSM is currently 19%, the number of children at risk of the poverty and equity attainment gap is 48%. Specific children have been targeted to initiate or maintain progress that will eventually bring them on track with their peers, closing the attainment gap.		
Activities/interventions:	<p>Writing & numeracy block of targeted intervention sessions for children at risk of not achieving second level literacy. We aim to close the attainment gap by reducing the number of targeted learners who are 'on the cusp' to achieving 'at expected level'.
